

HOME OFFICE CATALOG 2026

Dric Interior

A ROOM FOR FOCUS

Home Office Collection

Work has moved home — and the spaces built for it deserve the same intention as any other room.

At Dric Interior, we design home offices as considered spaces, not afterthoughts: clean lines, purposeful storage, and finishes selected to support long hours without losing their character.

Made in Nigeria to international standards, and backed by our guarantee — built for focus, and built to last.

Explore the collection.

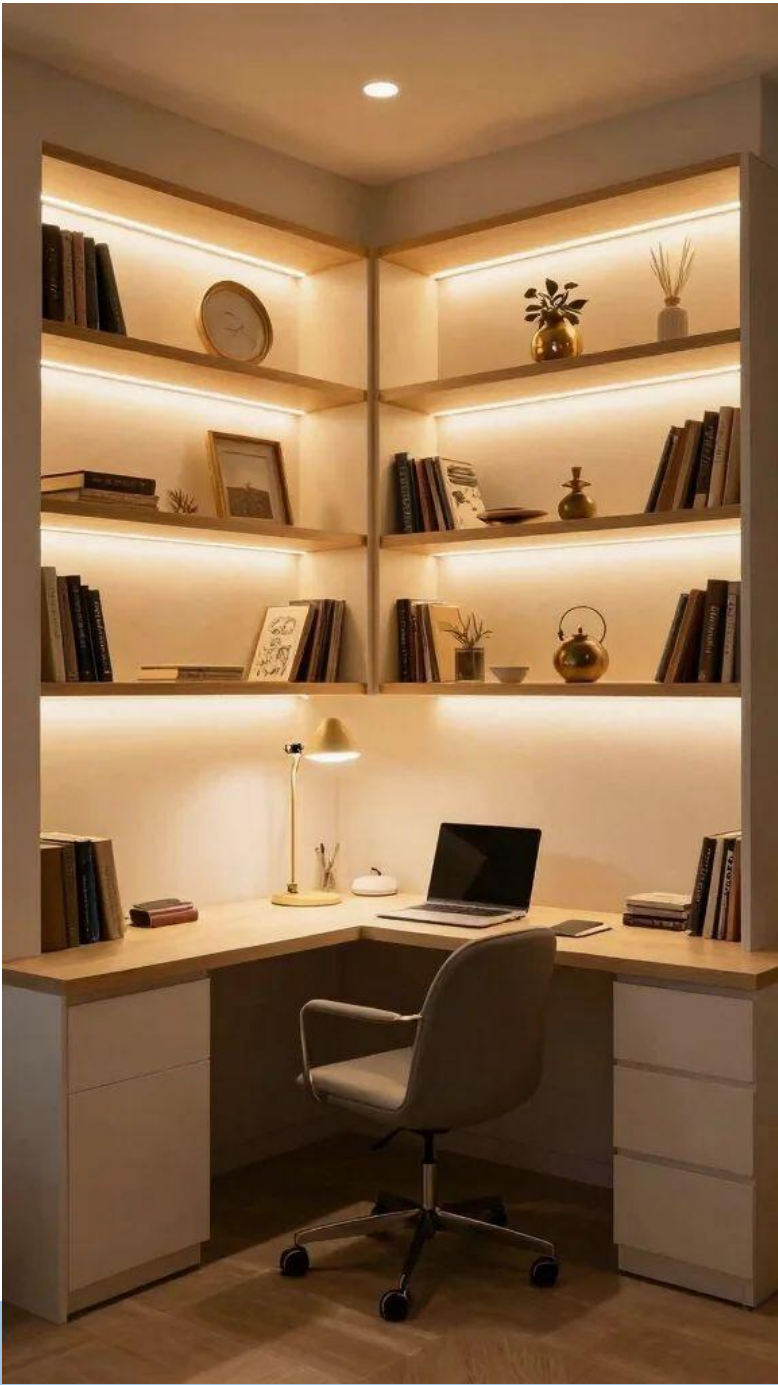

Every workstation in this collection can be tailored in dimension, finish, hardware, accessories and material to suit your space.
